

MONTHLY NEWSLETTER March/April 2012

President's Corner: We have had more than 35 new members join the BSC in the last two months. I would like to personally welcome all of you and your families to the Club. Please come out and enjoy our facilities often. We have some very interesting and colorful members and I am sure it will be good to meet and get to know some of your fellow shooters. If you all have any questions regarding any of the shooting disciplines, ideas on how we can improve our facilities, or any questions in general, please feel free to discuss them with any of our knowledgeable members or Board Members.

Since March was the warmest month in the history of record keeping, our members have been busy using the facilities. The grass has been growing faster than normal and has needed more cutting and trimming. Also, clean-up day is (April 14th) and we will be busier than normal. We will be building new steel platforms for throwers at the 5 stand. We will need a lot of manpower, cutting, welding and moving these platforms. Other chores such as painting, cleaning, and building targets at the rifle/pistol range will also need to be completed. We have had a large tree fall near the archery range and it will have to be removed as well. No RSVP NEEDED. In fact this would be a great time for our new members to come out and have some fun. Thank you . . . Mike Proctor

Clean-up Dates: JUST A REMINDER !! Spring clean-up will be held on April 14th. Please come out and help maintain the BSC Clubhouse and surrounding areas. Hopefully, the member turnout will be greater than last year. We will publish a list of tasks that we hope to accomplish during the clean-up. All help will be gratefully appreciated. We will begin cleanup at 8:30 AM. As a further enticement, although I'm sure none is needed, coffee, donuts, and lunch will be provided to all workers. Without help from our membership, it is extremely difficult and unfair to those members that continually donate their time to keep the Club presentable. Please bring any tools that you may feel necessary. Thanks. . . Joe

KUDOS: THANK YOU . . . THANK YOU . . . To the American Legion Auxiliary Unit #105 and its President, Christine Kendrick. The American Legion made a very generous donation of \$250 to support the BSC Youth Shooting Program. The program is important in teaching both gun safety and shooting skills for our junior members.

Rifle / Pistol Range: Many thanks to Barry Walling for his efforts in maintaining the rifle range. Several members have commented on the improvements. Thanks again Barry. Also, several more of our staple guns are missing. The staple guns are painted pink and some are engraved with "Property of BSC". If you have accidently placed any of the staplers in your shooting bag, please return them back to the Club. Thank You . . . Joe
